FRIDAY 27TH SEPTEMBER 2019

09:30 - 10:00

Welcome

Rafael Bernabeu. Instituto Bernabeu. Alicante, Spain.

Session I: New Markers of Ovarian Response

Chairman: Joaquín Llácer and TBC. Instituto Bernabeu. Alicante, Spain.

10:00 - 10:20

Future markers of Ovarian Reserve

Luca Persani

10:20 - 10:40

Ovarian Sensitivity as a marker in IVF

TBC

10:40 - 10:55

Debate

Session II: What's the ideal stimulation?

Chairman: Michael Scholtes and Athanasios Papathanasiou

10:55 - 11:15

Mild Stimulation is alive and very well

Geeta Nargund

11:15 - 11:45

Maximal Stimulation is the best strategy for the majority of our patients

Michael Alper

11:45 - 12:00

Debate

12:00 - 12:30

Coffee break

Session III: Individualization. Is it worth it?

Chairman: Yacoub Khalaf and Ruth Romero

12:30 - 12:50

"One size fits all"

Ben Willem Moll

12:50 - 13:10

Ovarian Stimulation in the era of precision medicine

Christophe Blockeel

13:10 - 13:25

Debate

13:25 - 15:00

Lunch Break

Session IV: The trigger and the "freeze all strategy"

Chairman: Shahar Kol and Liv Bente

15:00 - 15:20

Agonist trigger not only to avoid OHSS

Juan Carlos Castillo

15:20 - 15:40

Is fresh transfer still the first choice for patients?

Ben Willem Moll

15:40 - 15:55

Debate

Session V: Endometrial receptivity assessment (clinical markers)

Chairman: Belén Moliner and Isidoro Bruna

15:55 - 16:15

Progesterone as a marker of endometrial receptivity

Peter Humaidan

16:15 - 16:35

Ultrasound markers of endometrial receptivity. Uterine Contractility

Kanna Jayaprakasan

16:35 - 16:50

Debate

Session VI: Endometrial Receptivity Assessment (the molecular biology perspective)

Chairman: David Keefe and Laura de La Fuente

16:50 - 17:10

The role of microbiome in fertility disorders

Andrea Bernabeu

17:10 - 17:30

Looking for a transcriptomic profile of refractory endometrium

José Horcajadas

17:30 - 17:45

🗨️ Debate

17:45 - 18:15

☕ Coffee break

18:15 - 18:35

Special lecture. What are we really doing? Impact of ART in Human Epigenetics

Pilar Coy

SATURDAY 28TH SEPTEMBER 2019

Session I: Time to pregnancy

Chairman: Jorge Ten and Michael Dooley

09:30 - 09:50

Strategies shortening the time to live birth (the point of view of the gynecologist)

Rafael Bernabeu

09:50 - 10:10

Strategies shortening the time to live birth (the point of view of the embryologist)

Etienne Van den Abbeel

10:10 - 10:25

🗨️ Debate

Session II: PGT as a tool in the management of IVF patients

Chairman: José Antonio Ortiz and Juanjo Espinos

10:25 - 10:45

PGT evidence based medicine

Santiago Munné

10:45 - 11:05

TBC

TBC

11:05 - 11:20

🗨️ Debate

11:20 - 11:50

☕ Coffee break

Session III: Looking inside the embryo

Chairman: Meen Yau Thum and Francisco J. Iborra

11:50 - 12:10

Mitochondria and embryo competence

Belén Lledó

12:10 - 12:30

Is time to moving forward to Non-invasive PGT-A?

Lu

12:30 - 12:50

Special Lecture. Artificial intelligence: Big data in Human Reproduction

Nuria Oliver

12:50 - 13:10

Closing Remarks

Rafael Bernabeu

Welcome

As a doctor, you know the field of Reproductive Medicine is full of polemic issues.

We receive lots of input which is frequently controversial.

Considering our very busy agendas, it is difficult to find enough time to calmly and deeply discuss these issues with well-known colleagues and top scientific experts.

Moreover, we need to deal with very demanding and often-confused patients who have done extensive online research, which create scenarios of conflicting information.

All of us, including our patients, deserve to have access to the best knowledge.

Our patients and we definitely deserve the best knowledge.

And this is why Meeting the Experts was created.

Meeting the Experts is not just another congress.

The limited number of attendees, the high quality of speakers and the well selected topics give you an extraordinary opportunity to share knowledge, improve your medical competence and go home with a renewed point of view about the most important challenges we have to deal with, in a very friendly and open atmosphere of science and sunny Mediterranean days.

On behalf of the entire Instituto Bernabeu team, our warmest welcome.

Dr Rafael Bernabeu
